WHAT TO DO NOW & WHERE TO GO NEXT

Agua Caliente—behold the restorative touch of H2O

Every so often, we find a place that fills our soul, inspires our mind, and awakens our senses. **GRAND VELAS LOS CABOS** is such a place. The new \$150 million resort on Mexico's Baja Peninsula stands out with its striking architecture curved in a half-moon-shaped design facing the Sea of Cortez. An open-air lobby soars three stories and frames spectacular views.

Grand Velas makes for a marvelous home base while enjoying all of Cabo's adventure activities, including sailing, golfing, sport fishing, and whale watching. However, be forewarned: once inside your lavish suite, you may never want to leave. Each suite includes oversized bedrooms, walk-in closets, and baths with dual showers, wall jets, and Jacuzzis for two.

Whether you spend the day on the resort's yacht, by the pool, on the beach, or playing a round of golf, you'll want to be sure to book a few hours of sublime serenity at the Signature Spa. The two-level, 35,000-square-foot spa features 16 treatment rooms. Included in any treatment of 50 minutes or more, the exclusive Grand Velas Los Cabos Water Ceremony indulges you

with a multi-sensory hydrotherapy ritual. In addition to the pools and state-of-the-art sauna and steam rooms, this blissfully peaceful hydrotherapy area includes an ice room, sensory shower, polar pool, Jacuzzi, and thermal lounge. The Spa's Sensation Pool is unlike any other you've experienced. Dip into the divine warm waters and enjoy the various hydro-elements, including cascades, bubble geysers, powerful massaging jets, bubble beds, and carved-stone chaises for in-pool lounging.

As you take time to explore this marvelous water ritual, your personal spa valet will help customize your relaxing hydrotherapy and spa experience, answering any questions you may have, like how long to linger in each pool or how best to alternate your time between the various hot and cold rooms. Upon completion of your personal journey, recline on a heated lounge with a warm neck pillow, scented towels, and cucumber slices for your eyes to ensure the body is fully relaxed. Such an indulgent respite has us dreaming of a return visit already!
